The Node-RED interface features a sidebar on the left for node selection, a central workspace for building flows, and a right-hand panel for flow information and settings. In the workspace, a flow named 'Flow 1' is visible, consisting of a 'ui:web' node connected to a 'msg:payload' node. The right panel shows the flow's ID as '5303147ea435401e' and includes a message about accessing configuration nodes.
